

The MPH Course 2021 has started.

The academic year 2021 for the MPH Course started on April 7.

We welcomed 7 new students this year, and the orientation was held via online while taking measures against COVID-19.

With highly individual new members joining us, it's going to be an exciting year again.

We hope we can count on your support for the MPH Course again this year.

Congratulations on winning the award!

Aya Isumi (MPH course instructor/Research Fellow of Japan Society for the Promotion of Science) was awarded "Medical Research Encouragement Prize of TMDU in FY2020" for the paper entitled "Assessment of Additional Medical Costs Among Older Adults in Japan With a History of Childhood Maltreatment".

The "Medical Research Encouragement Prize of TMDU" was established with the aim of motivating the faculty members and stimulating their research by commending them for their outstanding achievements in research conducted at the university.

Fujiwara Lab.

(Department of Global Health Promotion)

website has been redesigned.

The new site features an attractive and innovative design with vibrant video content.

Most significantly, the new site is user friendly and easy to use on your desktop PC, tablet PC and smart phone.

Please have a look at our new website.

MPH Course

Introduction of newly enrolled students in April 2021

Name
Floret Maame Owusu

Country
Ghana

Previous affiliation
University of Ghana Medical Centre(Ghana)

Comment
As a Medical Doctor, it was important for me to study Public Health to enable me solve problems beyond the consulting room. Having the opportunity to offer this program in this prestigious university has been such a great privilege. I am enjoying the classes so far and I am looking forward to learning more from the courses ahead.

Name
Daniel Uche

Country
Nigeria

Previous affiliation
Work: Medecins Sans Frontieres/ Doctors Without Borders (MSF).
Previous University: Abia State University

Comment
TMDU is an institution to be affiliated to, excellent experience despite the COVID-19 pandemic

Name
Aiperi Asanbek kyzy

Country
Kyrgyz Republic

Previous affiliation

Comment
I'm honored to become a part of the TMDU community. It means a lot to me. My goal is to gain knowledge and skills in Japan to be able to increase the quality and accessibility of healthcare.

Name
Pichaya Jaroongjittanusonti

Country
Thailand

Previous affiliation
MD, Ministry of Public Health Thailand

Comment
My goal is to become a professional in international health. With active participation and discussion from everyone in class, the MPH in Global health course was very enjoyable and would hopefully lead me toward my dream career.

Name
Yasushi Takahashi

Country
Japan

Previous affiliation
Janssen Pharmaceutical K.K.
R&D, Clinical Leader, Infectious Diseases & Vaccine (Current)

Comment
So grateful leaning with fantastic lectures and truly diverse colleagues.
It is intense program and time commitment is required, yet happy to have more insight via peers and lectures.

Name
Abdulazim Awadalla

Country
Sudan

Previous affiliation
WHO Sudan country office – National Consultant
Federal Ministry of Health – Sudan

Comment
With the goal of expanding my insight, knowledge and skills in improving the health and welfare of people; I truly am excited to join the community of TMDU as a new student. Following the painful year of 2020, and the many challenges that occurred due to COVID-19 we all have a lot to learn. I look forward to learn from both my senseis and colleagues, to together make lives safer and contribute to improving the global health.

Name
Ikhtiyorjon Khamdamov

Country
Uzbekistan

Previous affiliation
-Bukhara state medical institute named after Avicenna 2014-2020(Bachelor's degree)

TMDU TOPICS

TMDU selected as a designated national university

Nine designated national university

On October 15, 2020, Tokyo Medical and Dental University (TMDU) received designation by the Minister of Education, Culture, Sports, Science and Technology as a designated national university during the fourth midterm goal phase—the designation implies that TMDU is expected to unveil educational and research activities of the highest level. Going forward, we will strengthen our research capabilities and, at the same time, foster clinician scientists and medical data scientists; we will also aim to realize global-level total healthcare by promoting international collaborations.
