

Vision-based Human Computer Interaction

演者：小池 英樹 教授

東京工業大学 情報理工学院

日時：2023年 7月 21日(金) 14:30~15:30

場所：21号館4階408 (情報医工学分野 第5研究室)

Abstract

Prof. Koike's research focuses on Human-Computer Interaction (HCI). He is particularly interested in Vision-based HCI, Projector-Camera Systems, Digital Sports, Human Augmentation, Information Visualization, and Cyber Security such as Intrusion Detection Systems and Honeypot. This presentation will begin with an overview of the field, then discuss current results and trend directions of research topics.
